RISK OF CRAFT.—Risk to attach to goods whilst in craft during the ordinary course of transit within the limits of the port of loading or discharge, including risks of aircraft; the risk on goods arriving for transhipment on a further voyage not hereby insured to cease on their discharge into transhipping craft or on delivery on the quay, as the case may be. No shore or quay risk is covered under this Certificate.

The holder of this Certificate is entitled to the above-mentioned insurance by virtue of a Policy effected for and on behalf of the holders of this and other Certificates, and this Certificate (subject to the special terms and conditions printed or written hereon) will, for the purpose of collecting any loss or claim, be accepted as showing that the holder is entitled to the benefit of such Policy to the extent herein set forth.
