COPENHAGEN B., 33, VESTERGADE February 25th 1914

Messrs. The Siam Cement Company Ltd.,

B a n g k o k .

Dear Sirs,

Before putting in hand the Exilor for your works we ask you to kindly inform us about the size of sacks you would decide to use.

As you probably know, we generally use in Europe 86 or 57 kg sacks, but we do not know which of these sizes would be most convenient in your case.

We further ask you to give us the size of a sack by stating the length and width of an empty sack when laid out on a table.

In our delivery of the Exilor a small motor for the dust collector is included. Please inform us of the voltage and the number of cycles of your electrical current, when we shall then be able to order this electrical motor.
